Thank you for the update Jody. If things do start to move a bit faster with the package please let me know. Janet will be working from home on Monday, March 7<sup>th</sup> so we will be sending her a weekend package on Friday, March 4<sup>th</sup> with any rules or material for review.

Hi Carissa,

I checked with Claudia and we are not planning to send the U&O FIP back to OAR today. We are still resolving a few issues raised by OAQPS on a call yesterday. The ADP tracker shows it going back to Janet on 3/7, which is the week she gets back from China. Since this date in ADP Tracker was recently updated, I believe that is still our target date. However, our management is not in the office today and there may be a slight chance it could go to OAR next week, before Janet leaves for China.

The package will be the proposed rule only, as we anticipate receiving comments that will need a response.

Thanks,

Jody

Good morning, Jody,

Do you know when OAR-IO can expect the R8 SAN 5872 rule package? I currently have 3/7/2016. Will this package be both the final and NPRM?

Thank you in advance for your help.

Carissa
